

VILLA DEL GOLFO

LIFESTYLE RESORT

PEACE OF MIND ON A MAGICAL ISLAND

With the unspoiled natural beauty of Gallura all around, Villa del Golfo is a resort where safety and seclusion set the tone. Sardinia is an island that exudes an atmosphere of peace and tranquility: the very same atmosphere you'll find at Villa del Golfo, where we're waiting to offer all our guests our warmest welcome.

This year, with your safety and well-being in mind, we're adding some new services to those we've always provided.

OUR COMMITMENT TO SAFETY

Privacy and seclusion have always been part of our philosophy, and every part of our resort, both indoors and outdoors, is designed accordingly. We've always taken care to organize experiences and activities that allow our guests to discover the culture and natural charms of Sardinia at their own speed, in the company of those they love most.

This year, to make sure your stay is an especially peaceful one, we're applying a range of safety guidelines to guarantee the highest possible standards of hygiene and cleanliness. These include requirements on social distancing, the use of personal protective equipment, and special sanitization products and procedures.

VILLA DEL GOLFO

LIFESTYLE RESORT

THE RESORT

Designed with the privacy of guests in mind, Villa del Golfo lies in three and a half hectares of grounds: a spacious setting which facilitates the observance of social distancing etiquette. Guests can wander around our spacious gardens with the reassurance that all resort facilities and infrastructure are for their exclusive use.

ROOMS AND SUITES

Every room and suite in Villa del Golfo has its own personality and offers total privacy to even the most demanding guests. All rooms are directly accessed from the grounds, with fully self-contained gardens and terraces, and spacious suites with private pool.

MORE SPACE TO MOVE FREELY

Villa del Golfo has 62 rooms, but only 32 are available during this year's high season. With fewer guests this summer, our resort feels even more spacious than ever, offering maximum privacy and the assurance that all shared facilities (both indoors and outdoors) can be enjoyed in full observance of social distancing requirements.

As all rooms are accessed directly from the grounds, there is no need for guests to negotiate narrow corridors or confined spaces on their way to and from their rooms. In the pool and sea deck zones, sunbeds and parasols are spaced at the intervals required by social distancing guidelines.

VILLA DEL GOLFO

LIFESTYLE RESORT

RESTAURANTS

The restaurants in Villa del Golfo offer spacious open-air seating areas facing the sea and with spectacular views over Gallura. Although we've scrupulously complied with the regulations on table spacing, our restaurants remain as cosy and welcoming as ever. All tables must be booked in advance to ensure the number of occupants does not exceed the thresholds imposed for safe indoor eating. Dining areas can be exclusively reserved for parties. Guests can view menus online using the QR code issued.

ROOM SERVICE WITH NO DELIVERY CHARGE

Breakfasts, lunches and dinners can be brought to your room where you can enjoy your meal in full privacy while you enjoy the extraordinary views from our rooms and exclusive gardens.

Call reception to place your order.

ACTIVITIES

Even in these difficult times, "unspoiled" is an adjective which perfectly applies to the coast and countryside of Gallura. Sun-drenched beaches, country trails winding among granite outcrops and Mediterranean scrub; whichever way you look, there's an experience waiting for you during your stay at Villa del Golfo. To comply with social distancing requirements, all activities the resort organizes for its guests are restricted to two persons or parents with children. Whether it's a yacht outing, dinner on board the BonAria, a cookery course or a visit to a local vineyard, all activities are totally private.

SAFETY AND SANITIZATION

REMOTE CHECK-IN APP

Guests can download our app enabling them to complete all check-in and check-out formalities safely and remotely.

ARRIVAL

On their arrival at the resort, all guests have their temperature taken in a specially designated area: an extra precaution for greater peace of mind.

TRANSFERS

We offer our guests a transfer service using reputed local taxi firms or the resort's own drivers and vehicles (auto, minivan and golf car): in each case, the rules on social distancing, hygiene and sanitization are scrupulously respected.

CLEAR AND CORRECT INFORMATION

Clearly-visible notices in all areas of the resort provide guests with essential information on prevention measures and the rules of conduct to be followed inside the resort to protect your own and others' safety.

PERSONAL PROTECTIVE EQUIPMENT AND SOCIAL DISTANCING

Sanitizer kits and face masks are available for all guests. Guests and resort staff must wear face masks in all common areas. We're asking you to observe social distancing etiquette and keep at least one metre away from other guests and staff. Sanitizer gel dispensers can be found in all areas of the resort.

CLEANLINESS AND HYGIENE

Cleanliness and hygiene have always been of paramount importance at Villa del Golfo, and this summer our room sanitization procedures are more stringent than ever before - particular attention goes to frequently-handled objects and surfaces, which are treated with special products. Guests will be asked to indicate the times they want their rooms to be cleaned (morning and evening).

VILLA DEL GOLFO

LIFESTYLE RESORT

SANITIZATION OF GUEST AREAS

All areas open to guests are cleaned and disinfected several times a day, with special attention to common areas and surfaces most frequently touched (handrails, light switches, lift buttons, door and window handles etc.).

SANITIZATION OF EQUIPMENT

Golf carts, bikes, scooters, and sunbeds in the pool area and beach deck are regularly sanitized with special products before and after use.

AIR CONDITIONING

Sanifichiamo ad ogni check-in i filtri dei condizionatori in uso nelle camere; per quelli attivi nelle aree comuni, interveniamo con frequenza doppia rispetto alle nostre abitudini degli anni passati.

POOLS

Every time a guest checks in we sanitize the filters in their room AC. Air conditioning units in common areas are serviced twice as regularly as in previous years.

STAFF

All Villa del Golfo staff enter the resort through a dedicated entrance equipped with a thermoscanner which measures their body temperature. All members of staff have received special training in the most recent WHO guidelines on safety and prevention, allowing them to do their jobs with maximum peace of mind.

HEALTH

A doctor is on call at all times, while a local safety officer oversees the correct application of safety procedures for guests and staff. All members of staff regularly undergo a battery of health checks to make sure they are fit to perform their job in occasionally difficult circumstances. For the same reasons, suppliers and technical personnel entering the resort are required to follow stringent rules of conduct.
